No. 3982-85 /CE O&M Distr: /P.F

Dated: 13/06/2022

The Section Officer (Lit / AB)
Energy & Power Department
1st Floor, Block-A, AW Complex,
Civil Secretariat Peshawar

Subject: **ADMITTED COPY OF STARRED/UNSTARRED ASSEMBLY QUESTION FOR THE NEXT/CURRENT SESSION OF THE PROVINCIAL ASSEMBLY (QUESTION NO.14698)**

Reference: Your letter No.14698/2022/554-1 Dated.18-05-2022.

The requisite information/ reply regarding Question No. 14698 moved by honorable MPA, Mr.Ahmed Kundi is depicted below please.

- Average demand = 2893-MW (w.e.f 01 to 08/06/2022).**
- Quota allowed = 1571-MW (Due to less Power Generation/crises in country).**
- Power utilized = 1728-MW.**
- Load management =1166-MW (Scheduled, forced & due to over loading).**

It is pertinent to mentioned here that scheduled load shedding is being implemented on all 11kV Feeders of PESCO according to the Aggregate Technical & Commercial (AT&C) Losses of the Feeders under the instructions of Ministry of Energy (Power Division) Islamabad as well as approval of PESCO Board of Directors / PITC Lahore.

However, due to prevailing power crises in the entire country because of less power generation, forced load management is also being carried out on the instructions of RCC Islamabad to keep Power System Network within the allocated power quota by NPCC Islamabad and save it from complete collapse / blackout.
