8. **Briefing on Legislative Intent, Aims, and Objects.**-The Additional Secretary (Administration Department) briefed the Committee on the legislative intent, aims, and objects of the Bill. The salient points placed on record were as follows:

- i. The proposed amendment Bill has been formulated on the basis of an external evaluation conducted by Sub-National Governance (SNG), which assessed the existing institutional framework, identified operational gaps, and recommended measures to enhance the effectiveness and efficiency of the Right to Public Services regime.
- ii. Since the enactment of the **Khyber Pakhtunkhwa Right to Public Services Act, 2014**, the scope of notified public services has expanded to approximately **80 services** being delivered by 14 Provincial Government departments, thereby necessitating legislative refinements to address evolving administrative and operational requirements. The Secretary, Right to Public Services Commission added that an additional **90 services** are currently under process for notification, and that more services (approx. 800) would be notified progressively in due course.
- iii. The Additional Secretary informed the Committee that the Bill aims to:
 - a. simplify and rationalize the process of notification of public services;
 - b. strengthen coordination between the Right to Public Services Commission and provincial departments;
 - c. clarify provisions relating to e-governance to facilitate technology-based service delivery; and
 - d. enhance public oversight and accountability mechanisms of the Commission.
- iv. Provisions have been introduced to ensure reasonable accommodation and facilitation of marginalized and vulnerable segments of society, in line with international best practices.
- v. The Bill empowers departments to expand the range of their notified public services within a period of **three years**, while making the de-notification of public services subject to approval of the Cabinet, thereby ensuring appropriate checks and balances.
- vi. Departments are provided a timeframe of **five years** to transition their services to online platforms, with a view to promoting innovation in public service delivery, including doorstep services.
- vii. The amendment seeks to empower service seekers by enabling monitoring of service timelines, thereby strengthening accountability of service providers.
- viii. The Bill further seeks to streamline interim arrangements and clarify the authority of the Chief Minister to expedite appointments of the Chief Commissioner and Commissioners, as well as to assign additional charge arrangements in the event of vacancies, to ensure uninterrupted functioning of the Commission.

9. **Clause-by-Clause Examination and Amendments.**-Thereafter, the Committee examined the Bill clause by clause and unanimously proposed the following amendments:

(1) **Amendment in Clause 4:**

in the proposed section 4,-

- (a) in sub-section (1), for the words "three years", the words "one year" shall be substituted;
- (b) in sub-section (1), as so amended, in the second proviso, the full stop, appearing at the end, shall be replaced by a colon and thereafter the following proviso shall be added, namely:

"Provided also that if a Department fails to notify any service as a public service for the purpose of this Act, such failure shall be deemed as misconduct on part of such Department and the officer responsible shall be proceeded against the efficiency and discipline rules, for the time being in force."; and

- (c) in sub-section (2), for the words "five years", the words "two years" shall be substituted.

(2) **Amendment in Clause 6:**

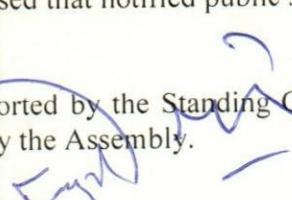

- (a) in the proposed section 8A, in sub-section (2), in the proviso, for the words "five years", the words "two years" shall be substituted; and
- (b) in the proposed section 8E, in sub-section (1), after the words "Khyber Pakhtunkhwa", a comma and the words ", not later than the 31st day of March of every year for the preceding year" shall be inserted.

10. **Correction of Patent Errors.**-In view of the year of enactment of the Bill and the amendments made therein, necessary and consequential patent errors have also been corrected.

11. **Observations and Recommendations.**-The Committee observed that in clause 2, clause (c), proposed clause (k-i), the term "**reasonable accommodation**" has been used in an ambiguous manner. The Committee suggested that the scope and nature of reasonable accommodation be clearly specified through by-laws (rules or regulations), for the benefit of marginalized and vulnerable segments of society.

12. The Committee further suggested that, as a significant segment of the population remains unaware of the Right to Public Services framework, extensive public awareness campaigns be launched at the district level. It was also advised that notified public services be disseminated in Urdu language for wider outreach.

13. The Committee recommended that the Bill, as reported by the Standing Committee, placed at "**Annexure-B**" may be taken into consideration by the Assembly.

STATEMENT OF OBJECTS AND REASONS

It is desirable to amend the Khyber Pakhtunkhwa Right to Public Services Act, 2014 (Khyber Pakhtunkhwa Act No. IV of 2014), for the purpose to simply notifying Public Services, coordination between the Commission and Departments, clarification of the vague provision for e-governance, provision for public oversight and accountability of the Commission. Moreover, provision of reasonable accommodation has been added to achieve international benchmarks by providing statutory provision for facilitation of the marginalized segments of the society.

This Bill empowers the departments to expand the range of their services within three (03) years. Similar authority can be seen in almost all Acts of the Indian states. However, the authority to de-notify public services has been made subject to approval of the cabinet only. Similarly, departments have been given five (05) years to provide their services online which will encourage department to think about innovations in public services like doorstep delivery. It will also create counter obligation on the Commission to assist, support and coordinate in providing technical input to the departments in adopting technology in the domain of service delivery. It will further empower the service seekers to monitor the service timeline so that the service provider may be held accountable.

In addition to all of the above, this Bill is intended to clarify the authority to allow interim arrangements and empower the Chief Minister, Khyber Pakhtunkhwa, to expedite the appointment of Chief Commissioner or Commissioners and to assign additional charge in the event of vacancy in the office of the Chief Commissioner and Commissioners in the Khyber Pakhtunkhwa Right to Public Services Commission. Hence, this Bill.
